

LIGHTSOURCE STAND

Assembly Instructions

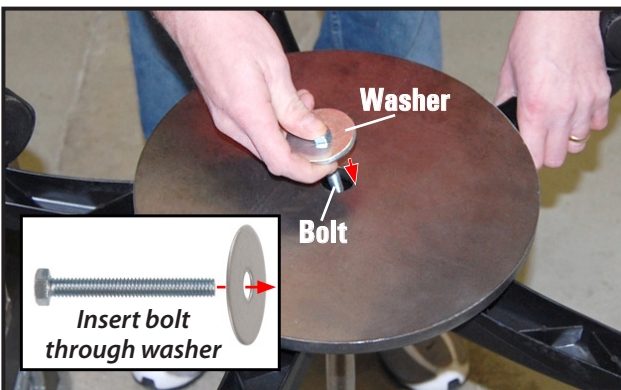

STEP 1

- Insert pole into base.

STEP 2

- Turn pole and base upside down.
- Place weight onto bottom of the base.

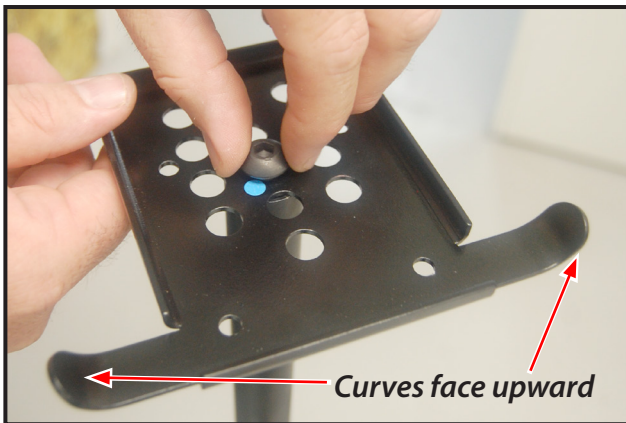

STEP 3

- Insert supplied bolt through washer.
- Insert bolt with washer through weight bottom and into the pole.

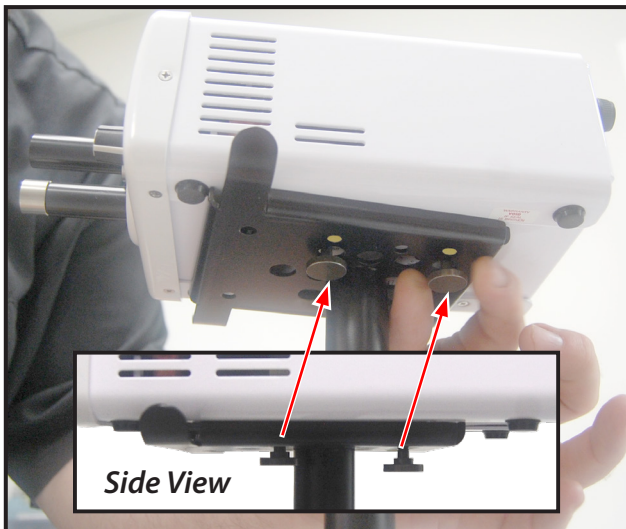

STEP 4

- Using a wrench, tighten bolt clockwise.
- Return stand to correct position after weight is secured.

STEP 5

- Mount lightsource bracket onto pole with the supplied bolt (hole will be marked with colored dot).
- Use an Allen Wrench to tighten bolt.

STEP 6

- Mount lightsource from the underside of the bracket with supplied bolts.
- Insert bolts into holes marked with dots.
- Handtighten bolts into lightsource.

Bracket with marked holes with bolts
